Stanford University

Hi All,

Today, you might have noticed a change in the NovoEd platform. The Forum space is now called Discussions, and offers a modern user experience that fosters higher engagement and in-depth conversations. The best part, now all discussions will be in real-time!

Below, we have put together a short guide to help you navigate the new Discussion experience.

Thanks,

Chuck

- 1. Topics:** You can find all the topics on the left side of the Discussions page. Clicking on a specific topic will open up an accompanying discussion on the right side. The Trending topic will appear on every discussion page, and aggregates all of the most popular posts from the course.
- 2. Create a New Post:** Create a new post at the top of the Discussions page. You will be asked to title your post and then tag it to a topic by picking from a drop-down menu.
- 3. Comment:** You can comment on any post by clicking on "comment" at the bottom of each post.
- 4. Subscribe:** You can subscribe to a specific post by clicking "subscribe" at the bottom of each post. If you subscribe to a post, you will receive email notifications when others have added conversation to the post.
